Let Us

Keep Your File Up to Date

¶ The tables in this Year Book are some of the regular sheets issued in our STATISTICAL SERVICE.

Every day, every week, or every month, as the case may be, we issue a sheet punched ready for filing, which keeps the facts up to date.

Let us quote you a price for our regular service on any of these compilations, or better still on the Complete Canadian or Complete Canadian and Foreign Service, with either of which we give a leather binder, properly indexed.

¶ Write or wire us for anything you want to know about Canadian Grain.

PRODUCTION

CROP OF 1921

(Dominion Bureau of Statistics)

The final estimate of acreage for 1921 of the Dominion Bureau of Statistics showed an increase over the figures used in 1920 of 5,340,155 acres for the Prairie Provinces. Of this increase 2,273,582 acres is a correction in the figures for the previous year, preliminary census returns of increase in number of farms since 1916 indicating that the acreage for 1920 had been underestimated to that extent. Balance of increase, 3,066,573 acres, represents estimated increase in acreage over 1920.
